Milwaukee Metropolitan Sewerage District (MMSD) will design and construct a 42-acre facility sited in the Milwaukee Harbor to contain approximately 1.5 billion gallons of treated wastewater. The primary purpose/objective of this program is to capitalize Indiana's DWSRF program for funding Emerging Contaminants projects consistent with the Safe Drinking Water Act (SDWA). The purpose of this agreement is for a capitalization grant which provides funds for the recipient's Clean Water State Revolving Fund program. Section 1452 of the Safe Drinking Water Act (SDWA) authorizes the state to utilize funds to further the health protection objectives of SDWA. The primary purpose/objective of this program is to capitalize Ohio's DWSRF program for funding Emerging Contaminants projects consistent with the Safe Drinking Water Act (SDWA). Section 1452 of the Safe Drinking Water Act (SDWA) authorizes the state to utilize funds to further the health protection objectives of SDWA. The primary purpose/objective of this program is to capitalize Minnesota's DWSRF program for funding Emerging Contaminants projects consistent with the Safe Drinking Water Act (SDWA). Section 1452 of the Safe Drinking Water Act (SDWA) authorizes the state to utilize funds to further the health protection objectives of SDWA. The purpose of this agreement is for a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), which provides funding to Grand Portage Band of Lake Superior Chippewa to carry out its mission to maintain, protect, and improve the proposed project. The proposed project will center around developing a collaborative of public and private sector entities led by UIC and the City of Chicago that will support the Environmental Finance Center (EFC) at Michigan Technological University (MTECH). This agreement provides funding to Delta Institute to propose delivering a comprehensive suite of eligible clean water and drinking water financial assistance programs. This agreement provides funding under the Infrastructure Investment and Jobs Act to support the Environmental Finance Center (EFC) at Grand Portage. The purpose of this agreement is for a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), which provides funding to the City of Detroit to develop and implement projects that will reduce lead exposure in drinking water. The agreement provides assistance to the City of Detroit to develop and implement projects that will reduce lead exposure in drinking water. The purpose of this American Rescue Plan funded grant agreement is to advance enhanced monitoring of Particulate Matter 2.5 (PM2.5) or other pollutants in the environment. The purpose of this grant is to provide assistance to the Bad River Band of Lake Superior Chippewa Indians to operate a National Atmospheric Monitoring Station. The purpose of this award is to initiate monitoring of air pollutants in and near the Lower Sioux Community. The Ohio Environmental Protection Agency (OH EPA) will work with partners to study and assess the impacts of microystins production rates. This project provides funding for OAI, Inc. to recruit, train, and place unemployed and underemployed residents of the South and West Sides of Detroit. This project provides funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) for RecycleForce, Inc. to recruit, train, and place unemployed and underemployed residents of Detroit. This project provides funding for Green Door Initiative to recruit, train, and place unemployed and underemployed residents of Detroit in environmental and health related fields. The purpose of this competitively selected American Rescue Plan (ARP) funded grant agreement provides funding to Ecology Action Center to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health outcomes. The purpose of this competitively selected American Rescue Plan funded grant agreement provides funding to Warehouse Workers for Justice to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health outcomes. The purpose of this American Rescue Plan funded and competitively selected grant is to conduct air monitoring of pollutants of greatest concern in communities with environmental and health outcomes. The purpose of this competitively selected grant is to conduct ambient air monitoring of PM 2.5 in communities with environmental and health outcomes. The purpose of this competitively selected grant is to determine local hotspots and emission sources using community scale monitoring. The agreement provides conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health outcomes. The purpose of this competitively ARP selected agreement is to provide Canton City Public Health (CCPH) the ability to conduct ambient air monitoring. The purpose of this competitively American Rescue Plan (ARP) selected agreement is to provide the Community Leveraged Expanded Air Network (CLEAN) to conduct ambient air monitoring. The purpose of this competitively selected ARP funded grant agreement is to provide Mid-Ohio Regional Planning Commission (MORPC) the ability to conduct ambient air monitoring. This grantee will conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health outcome disparities. The purpose of this competitively ARP selected grant is to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health outcomes. The purpose of this competitively selected American Rescue Plan funded grant is to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health outcomes. The agreement provides funding under the Inflation Reduction Act to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health outcomes. The purpose of this competitively selected grant is to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health outcomes. This agreement provides funding to the City of Carrollton to implement its project to construct a new water treatment plant as directed in the ARP. This agreement provides funding to the City of Sesser to implement its project to replace approximately 5,600 feet sanitary sewer line as directed in the ARP. This agreement provides funding to the Village of Blue Mound to implement its project for water system improvements and to rehabilitate the water system. This agreement provides funding to the City of Bemidji to implement its project to construct one new final clarifier that is equal in size to the existing clarifiers. This agreement provides funding to the City of Peoria to implement its project to utilize green infrastructure (GI) and constructing green streets. This agreement provides funding to the City of Harvey to implement its project for construction on 154th street corridor to redesign their community. This Agreement provides funding to Tuscarora Township to implement its project to expand Sewer Treatment to an area currently being served. This Agreement provides funding to the City of Mason to implement its project "Wastewater Treatment Plant Improvement and Expansion". This agreement provides funding to the Geauga County Department of Water Resources (GCDWR) to implement its project to renovate and upgrade the water system. This agreement provides funding to Strongsville, Ohio to implement its project for the Prospect Road Storm Sewer Project as directed in the ARP. The purpose of this competitively selected American Rescue Plan funded grant is to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health outcomes. The project will examine the history of the Velsicol Chemical Corp. Superfund site and related impacts on the local population and create educational programs. The purpose of this competitively ARP selected grant is to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health outcomes. The purpose of this agreement is for a capitalization grant which provides funds for the recipient's Drinking Water State Revolving Fund program. The Michigan Department of Health and Human Services (MDHHS) will work with the Michigan Public Health Institute to hire a Community Outreach Coordinator to administer and facilitate the Great Lakes Consortium for Fish Consumption Advisories (Consortium). The City of Evans, NY will restore the riparian habitat and install green infrastructure along Muddy Creek in the Lake Erie Beach District to reduce the amount of stormwater runoff. This agreement funds the recipient's program to conduct remedial design activities at the SE Rockford Area 11 hazardous waste site, which is located in Rockford, IL. Section 1452 of the Safe Drinking Water Act (SDWA) authorizes the state to utilize funds to further the health protection objectives of SDWA. The purpose of this American Rescue Plan funded grant agreement is to advance the Cook County Department of Environment and Sustainability's CCR Program. This agreement provides funding to the City of Joliet to implement its project to replace deteriorated and undersized water mains in the City of Joliet. This agreement provides funding to the City of Rushville to implement its project for functional replacements and construction as directed in the ARP. This agreement provides funding to the City of Assumption to implement its project for functional replacements and construction within the city limits. This agreement provides funding to Lake County Public Works to implement its project to fund preliminary engineering to design phase 2 of the CCR Program. The purpose of the state's CCR Program is to regular CCR surface impoundments sufficiently to ensure that the construction, operation, closure, and maintenance of the CCR Program. The agreement provides assistance to State and Tribal assistance grants to assist with work directly related to either the development of an air monitoring station or the implementation of the CCR Program.

This agreement provides funding under the Infrastructure Investment and Jobs Act to Van Pool Transportation. This agreement is to replace existing school buses with zero emission school buses.

This agreement provides funding under the Infrastructure Investment and Jobs Act to Student Transportation of America, Inc. to replace existing school buses with zero emission school buses.

This agreement provides funding for the White Earth Band of Chippewa Indians to install air sensors throughout the White Earth Reservation. Through the enhancement of air monitoring in environmental justice (EJ) areas, Michigan Department of Environment, Great Lakes, and Energy (EGL) This action obligates \$160,000 in Superfund Support funding to the Minnesota PCA in activities including the preparation of the Quality Assurance Plan (QAP) for the removal of lead-based paint in the residential buildings. This agreement provides funding to the Village of Lowellville to implement its project to make wastewater improvements as directed in the 2023 IIJA. This agreement provides funding to Hecla Water Association to implement its project to make water main and booster station improvements as directed in the 2023 IIJA. This project provides funding to MN State University Mankato to implement its project, which will design, demonstrate, and disseminate environmental education and training programs. This project provides funding to Openlands to implement its project, which will design, demonstrate, and disseminate environmental education and training programs. This project provides funding to Hubbard County Soil and Water Conservation District to implement its project, which will design, demonstrate, and disseminate environmental education and training programs. This project provides funding to Neighborhood House of Milwaukee to implement its project, which will design, demonstrate, and disseminate environmental education and training programs. This Agreement provides assistance under the Infrastructure Investment and Jobs Act to Southeast Michigan Council of Governments (SEMCOG). This Agreement provides assistance under the Infrastructure Investment and Jobs Act to the Ohio Environmental Protection Agency who will implement its project to make wastewater improvements as directed in the 2023 IIJA. This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) to Restore America's Estuaries (RAE) to develop and implement its project to restore and protect coastal and marine ecosystems. This Agreement provides assistance under the Infrastructure Investment and Jobs Act to Buffalo Niagara Waterkeeper (BNW) to create The Great Lakes and Energy (EGL) to implement its project to make wastewater improvements as directed in the 2023 IIJA. This agreement provides funding to City of Dayton to implement its project for Wolf Creek Sanitary Liners Installation as directed in the 2023 IIJA. This agreement provides funding to Belmont County Water and Sewer District to implement its project to make improvements to their sanitary sewer system. This assistance agreement provides funding to Village of Diamond to implement its project to replace aging and failing watermains as directed in the 2023 IIJA. This agreement provides funding to the City of Two Harbors, MN to implement its project to convert the existing facility to an extended aeration wastewater treatment plant. This agreement provides funding to the Village of Milford to implement its project to connect two wells to the existing water treatment plant as directed in the 2023 IIJA. This agreement provides funding to the Village of Oswego to implement its Corrosion Control Study Project as directed in the 2023 Consolidated Appropriations Act. This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) to Milwaukee Metropolitan Sewage District to implement its project to make wastewater improvements as directed in the 2023 IIJA. The agreement provides funding to Michigan Department of Environment, Great Lakes and Energy, Office of Great Lakes (EGLE). Specifically, the recipient will identify and prioritize sites for removal of lead-based paint. The agreement provides funding to Michigan Department of Environment, Great Lakes and Energy, Office of Great Lakes (EGLE). Specifically, the recipient will identify and prioritize sites for removal of lead-based paint. The agreement provides funding to Ohio Department of Natural Resources (ODNR) for restoration activities to reconnect a decommissioned water main. The Wisconsin Department of Natural Resources will survey and control invasive species across the state ownership within the Lower Wolf River. The agreement provides funding to Michigan Department of Environment, Great Lakes & Energy. Specifically, the recipient will identify and prioritize sites for removal of lead-based paint. The agreement provides funding to the City of Toledo. Specifically, the recipient will increase public access to a recently naturally-restored wetland area. The agreement provides funding to Minnesota Department of Resources. Specifically, the recipient in collaboration with the City of Duluth (City of Duluth) will implement its project to make wastewater improvements as directed in the 2023 IIJA. The New York State Office of Parks, Recreation, and Historic Preservation will treat 530 acres of hemlock forest for hemlock woolly adelgid (HWA). The agreement provides funding to Ohio Environmental Protection Agency. Specifically, the recipient will address contamination of fish tissue. This assistance agreement will support the Ohio EPA in partnership with Lucas, Defiance and Ottawa counties to increase the ability of ditch cleaning. The overall goal of this project is to increase participation in the EPA's Clean School Bus program across school districts in Minnesota. The City of Madison will partner with RENEW Wisconsin to create local advocates for clean school buses in Wisconsin's school districts. This agreement will provide assistance to Marquette University in its efforts to assess the potential of thermal networks for three development projects. The agreement provides funding to Chicago Department of Transportation. Specifically, the recipient will replace diesel bucket trucks with electric vehicles. The agreement provides funding to Environmental Initiative. Specifically, the recipient will reduce emissions of diesel particulate matter, nitrogen oxides, and sulfur dioxide. The assistance agreement provides funding to the American Lung Association to administer and implement projects that will reduce emissions of diesel particulate matter, nitrogen oxides, and sulfur dioxide. The agreement provides funding to Southwest Detroit Environmental Vision. Specifically, the recipient will replace one legacy-diesel powered school bus with an electric school bus. The agreement provides funding to Drive Clean Indiana, Inc. This recipient will undertake extensive diesel emission reduction efforts in the Midwestern states. Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance. This agreement provides funding to Chesterfield Charter Township to implement its project to repair the Maurice DeMuynck Anchor Bay Pumping Station. This agreement provides funding to City of Viroqua, WI to implement its project to extend and replace parts of its sewer system as directed in the 2023 IIJA. This agreement provides funding to the City of Northlake, Illinois to implement its project to line approximately 15,000 linear feet of existing sewer lines. This agreement provides funding to Royal Oak Charter Township to implement its project to replace aging water mains as directed in the 2023 IIJA. This agreement provides funding to Grosse Ile Township to implement its project to rehabilitate the HVAC at the Wastewater Treatment Plant. This agreement provides funding to Mid-Ohio Water and Sewer District to implement its project to purchase equipment for a new wastewater treatment plant. This agreement provides funding to Galesburg Sanitary District to implement its project to upgrade anaerobic digesters as directed in the 2023 IIJA. This project provides funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) for Great Lakes Community Conservation. This project provides funding under the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58) for Groundwork Ohio River Valley to conduct its project to make wastewater improvements as directed in the 2023 IIJA. This agreement provides funding to the Board of Trustee of the University of Illinois. Specifically, the recipient will develop a climate-based budget. This agreement provides funding to Board of Trustee of the University of Illinois to perform an assessment of post-Sackett federal rulemaking.

This assistance agreement provides funding to Lewis and Clark Community College supporting their effort to evaluate the quality of wetlands. This proposal is for updating and refining Michigan's approved wetland program plan that expires in 2024. The project will include evaluating the quality of wetlands in Michigan. The agreement provides funding to Michigan Department of Environment, Great Lakes, and Energy. Specifically, the recipient will directly administer the wetland program plan. The agreement provides funding to Ohio Environmental Protection Agency. Specifically, to collect statewide data for incorporation into Ohio's wetland program plan. The agreement provides funding to Ohio Environmental Protection Agency (Ohio EPA). Specifically, to update and provide clarification to the wetland program plan. The Ohio Department of Agriculture (ODA) Consumer Protection Laboratory (CPL) will be hosting a four-day Pesticide Workshop for USEPA. This agreement provides funding to Wisconsin Department of Natural Resources (WDNR). Specifically, to develop the program support needed for the wetland program plan. The agreement provides funding to Wisconsin Department of Natural Resources proposes to develop a wetland program plan that evaluates the quality of wetlands in Wisconsin. The agreement provides funding to Wisconsin Department of Natural Resources. Specifically, the recipient will develop a long-term wetland program plan. The agreement provides funding to the Ohio Department of Natural Resources to implement the H2Ohio Students Take Action and Interpretive Program. The agreement provides funding to the City of Lorain. Specifically, the recipient will improve public access at two sites at the mouth of the Black River. This agreement provides funding to Michigan Department of Environment, Great Lakes, and Energy (MI EGLE) who will implement three great lakes restoration projects.

This agreement provides funding to Michigan Department of Environment, Great Lakes, and Energy (MI EGLE) who will collect and analyze fish for contaminant monitoring to establish or evaluate current fish consumption advisories.

The agreement provides funding to Ohio Department of Natural Resources, Office of Coastal Management. Specifically, the recipient will monitor and evaluate the quality of wetlands in Ohio. This Agreement provides assistance under the Infrastructure Investment and Jobs Act to the Alliance for the Great Lakes (AGL) which will, in turn, provide funding to the Great Lakes. This agreement provides funding to Milwaukee Metropolitan Sewerage District to implement its project to purchase primary filtration filters as directed in the 2022 Consolidated Appropriations Act. This agreement provides funding to Milwaukee Metropolitan Sewerage District (MMSD) to implement its project to conduct a storm water study. This agreement provides funding to City of Rochester to make Water Reclamation Plant Upgrade as directed in the 2022 Consolidated Appropriations Act. This agreement provides funding to the City of Chicago to implement its Daycare Lead Service Line Replacement Project as directed in the 2022 Consolidated Appropriations Act. This agreement provides funding to City of River Falls, WI to implement its project to construct concrete tank extensions, precast structure and piping. This agreement provides funding to Macomb County, MI to implement its project to rehabilitate the Bon Heur Pump Station as directed in the 2022 Consolidated Appropriations Act. This agreement provides funding to City of Rocky River to implement its project to replace sewer lines along Buckingham Road, Argyle Oval, and Argyle Place. This agreement provides funding under the Inflation Reduction Act to the Indiana Department of Environmental Management to purchase necessary equipment. This agreement provides funding under the Inflation Reduction Act to the Michigan Department of Environment, Great Lakes, and Energy (MI EGLE). The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to State and local governments to respond to releases of hazardous substances. The agreement provides funding to Michigan DNR to replace twin perched culverts by installing an open bottom arch culvert, providing 20 million dollars in funding. The agreement provides funding to Michigan Department of Natural Resources (MI DNR). Specifically, the recipient will connect K-12 students to the Great Lakes. The agreement provides funding under the Inflation Reduction Act to the Mille Lacs Band of Ojibwe to characterize particulate matter trends in the Great Lakes. This agreement provides funding under the Inflation Reduction Act to Ohio Environmental Protection Agency. Specifically, the recipient will purchase equipment. The agreement provides funding to the Wisconsin Department of Natural Resources. Specifically, the recipient will administer 7 projects that will restore and enhance wetlands in Wisconsin. This agreement provides funding to the Wisconsin Department of Natural Resources (WDNR). WDNR will administer 9 projects that will restore and enhance wetlands in Wisconsin. The Alliance of Rouge Communities (ARC) will restore and enhance 14 acres of habitat and 500 feet of stream, which includes wetland, wet meadow, and upland areas. The agreement provides funding to Michigan Department of Environment, Great Lakes, and Energy (EGLE). Specifically, the recipient will expand and enhance the Great Lakes. This agreement provides funding under the Inflation Reduction Act to the Illinois Environmental Protection Agency for the expansion and enhancement of their air monitoring network. This agreement provides funding to Wisconsin Department of Natural Resources to assist underserved communities to meet and comply with environmental standards. The agreement provides funding under the Inflation Reduction Act to the Cook County Department of Environment and Sustainability for the expansion and enhancement of their air monitoring network. This agreement provides funding under the Inflation Reduction Act to the Forest County Potawatomi Community Tribe for the upgrade of their air monitoring equipment. The agreement provides funding under the Inflation Reduction Act to Ho-Chunk Nation for the expansion and enhancement of their air monitoring network. The agreement provides funding under the Inflation Reduction Act to the Sault Ste. Marie Tribe of Chippewa Indians for the expansion and enhancement of their air monitoring network. This agreement provides funding under the Inflation Reduction Act to the Bad River Tribe of Lake Superior Chippewa Indians for the enhancement of their air monitoring equipment. This agreement provides funding under the Inflation Reduction Act to Minnesota Pollution Control Agency for the expansion and enhancement of their air monitoring network. The agreement provides funding under the Inflation Reduction Act to the Ohio Environmental Protection Agency for the expansion and enhancement of their air monitoring network. The agreement provides funding under the Inflation Reduction Act to Regional Air Pollution Control Agency in Montgomery County, Ohio for the expansion and enhancement of their air monitoring network. The agreement provides funding under the Inflation Reduction Act to Hamilton County for the expansion and enhancement of their air monitoring network.

This Cooperative Agreement will provide funds to support activities and management associated with a CERCLA Site Reassessment investigation to be conducted by Illinois EPA at the Circle Smelting Site in Beckemeyer, Illinois.

This agreement provides funding under the Inflation Reduction Act to the Red Lake Band of Chippewa Indians for the expansion and enhancement of their air monitoring network. The agreement provides funding under the Inflation Reduction Act to the Mille Lacs Band of Ojibwe for the expansion and enhancement of their air monitoring network. The agreement provides funding under the Inflation Reduction Act to the Leech Lake Band of Ojibwe for the expansion and enhancement of their air monitoring network. The agreement provides funding under the Inflation Reduction Act to the Michigan Department of Environment, Great Lakes, and Energy for the expansion and enhancement of their air monitoring network. The agreement provides funding under the Inflation Reduction Act to Grand Portage Reservation Tribal Council for the expansion and enhancement of their air monitoring network. This agreement provides funding under the Inflation Reduction Act to Wisconsin Department of Natural Resources for the expansion and enhancement of their air monitoring network. This agreement provides funding under the Inflation Reduction Act to enable the Indiana Department of Environmental Management to update their air monitoring equipment. This cooperative agreement provides Great Lakes Restoration Initiative (GLRI) funding to Indiana University (IU) to further the goals of the Indiana Great Lakes Restoration Initiative.

MPCA will work with city of Duluth (and MNDNR) to implement stream restoration on 0.4 miles of Keene Creek, which is a channelized Trout. The agreement provides funding to the Ohio Lake Erie Commission. Specifically, the Ohio Lake Erie Commission (OLEC) will serve as co-ho. The agreement provides funding to the Michigan Department of Environment, Great Lakes & Energy (EGLE). Specifically, the recipient The agreement provides funding to Michigan Department of Environment, Great Lakes & Energy (EGLE). Specifically, the recipient will

Great Lakes Fishery Commission (Commission) will implement four priority projects that will control invasive species and support the planning and implementation of restoration programs, to aid in recovery of native fish.

The agreement provides funding to Wisconsin Department of Natural Resources to tailor outreach and education on water quality, fish consum. The Alliance of Rouge Communities (ARC) will create wetland habitat adjacent to the Middle Rouge River in the City of Westland in the Rouge. The agreement provides funding to The City of Toledo. Specifically The City of Toledo will create instream habitat in the nearshore area of the Wisconsin Department of Natural Resources will administer 6 projects that perform priority habitat restoration, protection and enhancement e. The agreement provides funding to Erie County Soil & Water Conservation. The recipient will mitigate soil erosion and restore two stream. The agreement provides funding to the Wisconsin Department of Natural Resources. Specifically, the recipient will identify potential green infr. This agreement provides funding to Michigan Department of Natural Resources (MDNR) who will provide information to the public about aqua. The agreement provides funding to the City of Duluth, Minnesota. Specifically, the recipient will provide public access to the newly restored St. As part of Ohio EPA's Technology Assessment Program, this project aims to demonstrate the potential of Electric Cell Lysis (ECL) as. The agreement provides funding to the City of Green Bay. Specifically, the recipient will install a wildlife viewing platform and a shoreline walk. This agreement provides funding to the Indiana Department of Health (IDOH) to create and translate fish consumption advisory outreach mat. Saint Regis Mohawk Tribe (SRMT) will provide traditional ecological knowledge (TEK) education to the Akwesasne community. The agreement provides funding to the Saint Regis Mohawk Tribe. Specifically, the recipient will utilize the project funding to support collectio. The agreement provides funding to the Wisconsin Department of Natural Resources. Specifically, the recipient will apply a targeted approach. This assistance agreement provides Great Lakes Restoration Initiative (GLRI) funding to the Ohio Department of Natural Resources (ODNR). This assistance agreement provides funding to Michigan Department of Health and Human Services (MDHHS) who will provide information to. New York State Office of Parks, Recreation and Historic Preservation will control invasive species and restore the New York State Natural Her. Erie County, New York will collaborate with the City of Buffalo Society of Natural Sciences to enhance a remaining 75-acre coastal marsh loca. The agreement provides funding to the Michigan Department of Environment, Great Lakes, & Energy (EGLE). Specifically, the recipient. The agreement provides funding to the Lake County Soil and Water Conservation District (LCSWCD) to conduct a feasibility study and desig. This agreement provides funding to Michigan Department of Natural Resources (MDNR) who will continue to support the Great Lakes Fish M. The agreement provides funding to the Minnesota Department of Natural Resources (MNDNR) to implement its project to support the Great L. The agreement provides funding to the Minnesota Department of Natural Resources to administer a project to address concerns of spreading. The agreement provides funding to Cleveland Metroparks. Specifically, the recipient will administer a project that will modify an existing fish b. The agreement provides funding to the Ohio Department of Agriculture to design, install, and demonstrate a capture, storage, and recycling o. This agreement provides funding to DuPage County to implement its project to procure a qualified Design Engineering firm to complete the de. This agreement provides funding to City of Brunswick to implement its project to improve storm water management by removing accumulated. This agreement provides funding to City of Cleveland to implement its project to replace existing sewer pipes on West 70 Street as directed ir. This agreement provides funding to the City of Cleveland to implement its project to replace existing sewer pipes on East 115 Street as direct. This agreement provides funding to the City of Litchfield to implement its project to implement phases one and two of its Water Distribution s. This agreement provides funding to City of Portsmouth to implement its project to make improvements to the existing water treatment plant a. This agreement provides funding to Milwaukee Water Works to implement its project to rehabilitate the Howard Treatment Plant Filter Beds a. This agreement provides funding to City of the Village of Minnetonka Beach to an equipment purchase for the PFAS Treatment System Proj. This Agreement provides funding to MI EGLE to assist an underserved community to meet and comply with SDWA Drinking Water Regulat. This agreement will provide assistance to the Wisconsin Local Governments Climate Coalition in its efforts to identify best practice strategies. This agreement provides funding under the Inflation Reduction Act to Sault Ste. Marie Tribe of Chippewa Indians. Specifically, the recipient w. This agreement provides funding under the Inflation Reduction Act to Grand Portage Reservation Tribal Council for the expansion and enhanc. This agreement funds the recipient's program to conduct site inspections to assess current conditions at the Galesburg/Koppers Co hazardou. This project aims to address specific buildings in and around the City of Cass Lake, through Phase I and II Environmental Site Assessments, This agreement provides funding to the City of Willoughby to implement its project for the Willoughby-Eastlake Water Pollution Control Cente. The agreement provides funding to Green Umbrella. This proposal outlines three tiers of cross-sector community engagement projects acros. This agreement provides funding under the Inflation Reduction Act (IRA) to Metropolitan Tenants Organization (MTO). The recipient will train. The agreement provides funding to Detroiters Working for Environmental Justice. Specifically, the recipient will build a text-messaging system. Opportunities for distributed solar energy abound on residential, commercial, and government properties. As we seek to reduce our reliance o. These grant funds will be used by the Ohio Environmental Protection Agency to implement the EPA-approved Coal Combustion Residual (CC. The Illinois Sustainable Technology Center (ISTC) and the Smart Energy Design Assistance Center (SEDAC), units of the University of Illinoi. The purpose of this award is to provide funding under the Inflation Reduction Act to Illinois Environmental Protection Agency. The recipient w. The purpose of this award is to provide funding under the Inflation Reduction Act to the Michigan Department of Environment, Great Lakes, a. The purpose of this award is to provide funding under the Inflation Reduction Act to Minnesota Pollution Control Agency. The recipient will imp. The purpose of this award is to provide funding under the Inflation Reduction Act to Cuyahoga County. The recipient will implement greenhou. This project will focus on retail food businesses with fewer than 100 employees and accomplish two key gaps these markets face in refrigerat

This agreement provides funding to City of Bay Village to implement design and engineering for their Sanitary Sewer Overflow Elimination Project as directed in the 2024 Consolidated Appropriations Act.

This agreement provides funding to the City of Loveland to implement its Cherokee Drive Water Main Replacement Project as directed in the 2024 Consolidated Appropriations Act.

This agreement provides funding to Holmes County Commissioners to implement its Wastewater Treatment Plant Expansion Project as directed in the 2024 Consolidated Appropriations Act.

This agreement provides funding to Washington County Board of Commissioners to implement its project for the design and engineering of a new wastewater treatment plant as directed in the 2024 Consolidated Appropriations Act.

This agreement provides funding to City of Birchwood to implement its project, which includes the demolition of the existing lift station, with the funds provided by the 2024 Consolidated Appropriations Act.

This agreement provides funding to the City of Sandusky to implement its project for MacArthur Park Neighborhood Drinking Water Infrastructure Improvement Project as directed in the 2024 Consolidated Appropriations Act.

This agreement provides funding to Lucas County to implement its project to design and install a functional sanitary sewer system within the city of Lucasville as directed in the 2024 Consolidated Appropriations Act.

This agreement provides funding to the City of Willoughby to implement its Chagrin Floodplain Restoration and Protection Project as directed in the 2024 Consolidated Appropriations Act.

This agreement provides funding to Northern Township for Wastewater System Project to implement its project to consist of planning and design, construction, and operation of a wastewater system as directed in the 2024 Consolidated Appropriations Act.

This award will provide General Assistance Program (GAP) funds to the Stockbridge-Munsee Community in support of environmental capacity building projects. Specifically, the project will identify 10 priority projects for funding.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant.

This agreement provides funding under the Inflation Reduction Act (IRA) to the MetroHealth System. Specifically, the project will identify 10 priority projects for funding.

This agreement provides funding under the Inflation Reduction Act (IRA) to The Inter-Tribal Council of Michigan, Inc. (ITCMI) to conduct Community-based projects.

This agreement provides funding under the Inflation Reduction Act (IRA) to the Inter-Tribal Council of Michigan, Inc. Specifically, the project will identify 10 priority projects for funding.

The purpose of this award is to provide funding under the Inflation Reduction Act to the Bad River Band of Lake Superior Chippewa. The recipient will implement projects to address environmental challenges.

The purpose of this award is to provide funding under the Inflation Reduction Act to Lac Vieux Desert Band of Lake Superior Chippewa Indian Tribe. The recipient will implement projects to address environmental challenges.

The purpose of this award is to provide funding under the Inflation Reduction Act to Bay Mills Indian Community. The recipient will implement projects to address environmental challenges.

The purpose of this award is to provide funding under the Inflation Reduction Act to the Nottawaseppi Huron Band of the Potawatomi. The recipient will implement projects to address environmental challenges.

The purpose of this award is to provide funding under the Inflation Reduction Act to the Pokagon Band of Potawatomi. The recipient will implement projects to address environmental challenges.

The purpose of this award is to provide funding under the Inflation Reduction Act to the Michigan Department of Environment, Great Lakes, a state agency.

The purpose of this award is to provide funding under the Inflation Reduction Act to the Ports of Indiana. Specifically, the recipient will conduct projects to address environmental challenges.

The purpose of this award is to provide funding under the Inflation Reduction Act to the Illinois Environmental Protection Agency. Specifically, the recipient will implement projects to address environmental challenges.

The purpose of this award is to provide funding under the Inflation Reduction Act to the Detroit Wayne County Port Authority. Specifically, the recipient will implement projects to address environmental challenges.

The purpose of this award is to provide funding under the Inflation Reduction Act to the Illinois Environmental Protection Agency. Specifically, the recipient will implement projects to address environmental challenges.

This agreement provides funding to City of Jackson to implement its project to install and repair water mains along Hupp Ave. and Morrell St.

This agreement provides funding to City of Quincy to implement its project to complete their Lead Service Line Replacement Project as directed in the 2024 Consolidated Appropriations Act.

This project provides funding to Inland Seas Education Association to implement its project, which will design, demonstrate, and disseminate best practices for water conservation.

This project provides funding to The Field Museum of Natural History to implement its project, which will design, demonstrate, and disseminate best practices for water conservation.

This project provides funding to The Children and Teachers Foundation of the Chicago Teachers Union to implement its project, which will design, demonstrate, and disseminate best practices for water conservation.

This agreement provides funding to Northern Moraine Wastewater Reclamation District to implement its project to purchase an emergency generator.

This agreement provides funding to Macomb Interceptor Drainage District via Macomb County to implement its project to rehabilitate aging infrastructure.

This agreement provides funding to Lake County, Illinois to implement the Wildwood Watermain Replacement Project as directed in the 2024 Consolidated Appropriations Act.

This agreement provides funding to the City of Wood Dale to implement the Addison Road Water Main Replacement Project as directed in the 2024 Consolidated Appropriations Act.

The Michigan Department of Environment, Great Lakes and Energy (Michigan DEGLE) project will provide pollution prevention and waste reduction projects.

This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) to University of Illinois at Urbana-Champaign. The recipient will implement projects to address environmental challenges.

This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) to Central Michigan University. The recipient will implement projects to address environmental challenges.

This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) to Illinois Environmental Protection Agency (IEPA).

The purpose of this award is to provide funding under the Inflation Reduction Act to Detroit/Wayne County Port Authority. Specifically, the recipient will implement projects to address environmental challenges.

This agreement provides funding under the Inflation Reduction Act (IRA) to Kalamazoo County Government. Specifically, the project will focus on energy efficiency and renewable energy projects.

This agreement provides funding under the Inflation Reduction Act (IRA) to EcoWorks. Specifically, the project will transform 20 houses of working families into zero-emission homes.

This agreement provides funding under the Inflation Reduction Act (IRA) to the City of Evansville to implement the Moving Evansville Towards Zero Emissions project.

This agreement provides funding under the Inflation Reduction Act (IRA) to Friends of the Chicago River. Specifically, the project will ensure clean water and habitat restoration.

The agreement provides funding under the Inflation Reduction Act to the Illinois State Board of Education to replace in-use, non-zero-emission school buses.

The agreement provides funding under the Inflation Reduction Act to Zion Elementary School District 6 to replace in-use, non-zero-emission school buses.

The agreement provides funding under the Inflation Reduction Act to City of Chicago Department of Fleet & Facility Management to replace in-use, non-zero-emission vehicles.

The agreement provides funding under the Inflation Reduction Act to the Indiana Department of Environmental Management to replace in-use, non-zero-emission vehicles.

The agreement provides funding under the Inflation Reduction Act to Northeastern Illinois Railroad Corporation (Metra) to replace in-use, non-zero-emission vehicles.

The agreement provides funding under the Inflation Reduction Act to the Forest Preserve District of Cook County to replace in-use, non-zero-emission vehicles.

The agreement provides funding under the Inflation Reduction Act to North Chicago Community Unit School District 187 to replace in-use, non-zero-emission vehicles.

The agreement provides funding under the Inflation Reduction Act to North Grayslake School District to replace in-use, non-zero-emission vehicles.

The agreement provides funding under the Inflation Reduction Act to Michigan Department of Environment, Great Lakes, and Energy to replace in-use, non-zero-emission vehicles.

This agreement provides funding to Village of Evergreen Park to implement its Lead Service Line Replacement Project as directed in the 2024 Consolidated Appropriations Act.

This agreement provides funding under the Inflation Reduction Act (IRA) to Groundwork USA, INC.. Specifically, the project will utilize their environmental services.

This agreement provides funding under the Inflation Reduction Act (IRA) to Southwestern Michigan Commission. Specifically, the project will implement projects to address environmental challenges.

This agreement provides funding under the Inflation Reduction Act (IRA) to Seven Generations Ahead. Specifically, the project will establish a new environmental organization.

The United States Environmental Protection Agency is supplementing this existing cooperative agreement for the Saint Paul Port Authority to implement its Lead Service Line Replacement Project as directed in the 2024 Consolidated Appropriations Act.

This agreement provides funding under the Inflation Reduction Act (IRA) to The Trust for Public Land. Specifically, through this project entitled "Greening Our Parks", the Trust for Public Land will implement projects to address environmental challenges.

Colorado Community Monitoring and Citizen Science Proof of Concept

The primary objective of this project is to support on-going monitoring of PM2.5 and other National Ambient Air Quality Standard (NAAQS) projects. The project is a continuation of the South Dakota Department of Agriculture and Natural Resources - Inflation Reduction Act Direct Award Monitoring Project - 2023-2026.

This agreement provides funding under the Inflation Reduction Act (IRA) to the Colorado Department of Public Health and Environment. The purpose of this grant is to provide financial support to States and Tribes to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health concerns. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

This agreement provides funding under the Inflation Reduction Act (IRA) to the Montana Department of Environmental Quality. The purpose of this grant is to provide financial support to States and Tribes to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health concerns. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

This agreement provides funding under the Inflation Reduction Act (IRA) to the South Dakota Department of Agriculture and Natural Resources. The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to States and Tribes to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health concerns. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

This agreement provides funding under the Inflation Reduction Act (IRA) to the Ute Mountain Ute Tribe. The purpose of this grant is to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health concerns. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazard.

The agreement provides funding under the Inflation Reduction Act (IRA) to the Denver Regional Council of Governments (DRCOG) to develop a Climate Action Plan to reduce greenhouse gas emissions. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

The agreement provides funding under the Inflation Reduction Act (IRA) to Salt Lake City, Utah to develop a comprehensive, economy-wide climate plan to reduce greenhouse gas emissions. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazard.

This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) to Highland Fleets. This agreement is to replace 51 existing school buses with clean and zero emission (ZE) school buses.

This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA) to Harlow's Bus Sales, Inc. This agreement is to replace existing school buses with clean and zero emission (ZE) school buses.

This agreement provides funding to the Confederated Salish & Kootenai Tribes to continue the recipient's implementation of its pesticide reduction plan. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

The agreement provides funding under the Inflation Reduction Act (IRA) to Ute Mountain Ute for the expansion and enhancement of their air monitoring program. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazard.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazard.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazard.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazard.

The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to the Colorado Energy Office (CEO). The recipient will replace existing school buses with clean and zero emission (ZE) school buses.

The purpose of this award is to provide funding under the Inflation Reduction Act (IRA) to Montana Department of Natural Resources and Conservation. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

The agreement provides funding under the Inflation Reduction Act (IRA) to Colorado Department of Corrections to replace in-use, non-zero-emission vehicles with clean and zero emission (ZE) vehicles.

The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to States and Tribes to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health concerns.

The agreement provides funding under Inflation Reduction Act to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health concerns.

The agreement provides funds to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health concerns.

The agreement provides funding under Inflation Reduction Act to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health concerns.

The agreement provides funding under the Inflation Reduction Act (IRA) to the North Dakota Department of Environmental Quality (NDDEQ) to develop a Climate Action Plan to reduce greenhouse gas emissions. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

The agreement provides funding under the Inflation Reduction Act (IRA) to the Utah Department of Environmental Quality (UDEQ) to develop a Climate Action Plan to reduce greenhouse gas emissions. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

The agreement provides funding under the Inflation Reduction Act (IRA) to the Montana Department of Environmental Quality (DEQ) to develop a Climate Action Plan to reduce greenhouse gas emissions. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

The agreement provides funding under the Inflation Reduction Act (IRA) to the Colorado Energy Office (CEO) to develop a comprehensive, economy-wide climate plan to reduce greenhouse gas emissions. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

Section 1452 of the Safe Drinking Water Act (SDWA) authorizes the state to utilize funds to further the health protection objectives of SDWA.

The purpose of this agreement is for a capitalization grant which provides funds for the Montana Drinking Water State Revolving Fund (DWSRF) to replace existing school buses with clean and zero emission (ZE) school buses.

This agreement provides funding to Montana DEQ under the Safe Drinking Act: Section 1452 and Infrastructure Investment and Jobs Act (IIJA). The purpose of this agreement is for a capitalization grant, funded by the Infrastructure Investment and Jobs Act (IIJA) (PL 117-58), for the recipient to replace existing school buses with clean and zero emission (ZE) school buses.

This agreement provides funding under the Infrastructure Investment and Jobs Act (IIJA). The purpose of the project is for a capitalization grant to the Blackfeet Tribe to create a Climate Action Plan to develop a comprehensive, economy-wide climate plan to reduce greenhouse gas emissions. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

The agreement provides funding under the Inflation Reduction Act (IRA) to the Three Affiliated Tribes to develop a comprehensive, economy-wide climate plan to reduce greenhouse gas emissions. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

The agreement provides funding under the Inflation Reduction Act (IRA) to the City of Rapid City, South Dakota to develop a comprehensive, economy-wide climate plan to reduce greenhouse gas emissions. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

This agreement provides funding under the Inflation Reduction Act (IRA) to the Blackfeet Tribe. The purpose of this grant is to enhance the Tribe's environmental protection programs. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to States and Tribes to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health concerns.

This agreement provides funding under the Inflation Reduction Act (IRA) to Blackfeet Tribe to create a Climate Action Plan to develop a comprehensive, economy-wide climate plan to reduce greenhouse gas emissions. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

This agreement provides funding from the Infrastructure Investment and Jobs Act (IIJA) to the Blackfeet Tribe. EPA's Solid Waste Infrastructure Program will provide funding to the Blackfeet Tribe to conduct a project to improve the management of hazardous waste.

The purpose of this award is to provide funding to the Blackfeet Tribe to conduct a project to improve the management of hazardous waste.

This agreement provides funding under the Inflation Reduction Act (IRA) to Blackfeet Environmental Air Quality. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

The agreement provides funding to Drive Clean Colorado. The award will reduce freight emissions by replacing six diesel Class 6 box trucks with clean and zero emission (ZE) box trucks.

The agreement provides funding to North Tooele Fire Department. Specifically, the recipient will replace a legacy diesel engine with a new, Tier 4 diesel engine.

The agreement provides funding to Elbert School District to replace one type C school bus with a new bus with a Tier 4 diesel engine. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

The agreement provides funding under the Inflation Reduction Act (IRA) to Colorado Department of Public Health and Environment for the expansion and enhancement of their air monitoring program. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

The agreement provides funding under the Inflation Reduction Act (IRA) to MHA for the expansion and enhancement of their air monitoring program. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

This agreement provides funding to the Three Affiliated Tribes to support their underground storage tank (UST) program. Specifically, this agreement provides funding for the operation of the Three Affiliated Tribes' continuing environmental programs while giving it greater flexibility to address environmental challenges.

Brownfields are real property, the expansion, development, or reuse of which may be complicated by the presence or potential presence of a hazard.

Brownfields are real property, the expansion, development or reuse of which may be complicated by the presence or potential presence of a hazard.

The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to States and Tribes to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health concerns.

The agreement provides funding under Inflation Reduction Act to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health concerns.

The agreement provides funding under Inflation Reduction Act to conduct ambient air monitoring of pollutants of greatest concern in communities with environmental and health concerns.

The agreement provides ambient air monitoring of pollutants of greatest concern (particulate matter, ozone, and volatile organic compounds) in the Blackfeet Tribe's service area. Specifically, the recipient will replace existing school buses with clean and zero emission (ZE) school buses.

This agreement provides funding to Centerville to implement its project to create a water storage tank as directed in the 2022 Consolidated Appropriations Act (P.L. 117-111).

Ecology assistance to EPA on remediation of Ruston and North Tacoma Yards. Ecology will review project documents for consistency with State and Tribal Response Program grants are to provide financial support to State. This agreement provides funding for the operation of the Tulalip Tribes of Washington continuing environmental programs while giving it greater flexibility to address its environmental programs. This agreement funds the recipient's program to conduct remedial planning, investigation, feasibility study, and remedial action at the Bunker Hill Superfund Site. The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to State. This project provides funding for ADEC's response program that includes: timely survey and inventory of brownfield sites, which are properties owned or used by the tribe. The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to State. The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to State. The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to State. EPA's CERCLA Section 128(a) grant program funds activities that establish or enhance the capacity for state and tribal response programs. This agreement provides funding for the operation of the Confederated Tribes of the Grand Ronde Community of Oregon's continuing environmental programs while giving it greater flexibility to address its environmental programs. This agreement provides funding for the operation of the Confederated Tribes of the Colville Reservation's continuing environmental programs while giving it greater flexibility to address its environmental programs. The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to State. This agreement provides funding for the operation of the Upper Skagit Indian Tribe's continuing environmental programs while giving it greater flexibility to address its environmental programs. This agreement provides funding for the operation of the Samish Indian Nation continuing environmental programs while giving it greater flexibility to address its environmental programs. This agreement provides funding for the operation of the Swinomish Indian Tribal Community continuing environmental programs while giving it greater flexibility to address its environmental programs. This agreement provides funding for the operation of the Snoqualmie Indian Tribe continuing environmental programs while giving it greater flexibility to address its environmental programs. This agreement provides funding for the operation of the Puyallup Tribe of Indians continuing environmental programs while giving it greater flexibility to address its environmental programs. The agreement provides funding to the Confederated Tribes of Warm Springs. The recipient will continue establishing an air quality program while giving it greater flexibility to address its environmental programs. This agreement provides funding for the operation of the Skokomish Tribe's continuing environmental programs while giving it greater flexibility to address its environmental programs. This agreement provides funding for the operation of the Suquamish Indian Tribe's continuing environmental programs while giving it greater flexibility to address its environmental programs. This Performance Partnership Grant provides funding for the operation of the Confederated Tribes of the Coos, Lower Umpqua and Siuslaw Indians' continuing environmental programs while giving it greater flexibility to address its environmental programs. This agreement provides funding for the operation of the Confederated Tribes of Coos, Lower Umpqua and Siuslaw Indians' continuing environmental programs while giving it greater flexibility to address its environmental programs. The primary objectives of EPA's CERCLA Section 128(a) State and Tribal Response Program grants are to provide financial support to State. This support agency cooperative agreement funds the participation of the Shoshone-Bannock Tribes of the Fort Hall Reservation in CERCLA. This support agency cooperative agreement funds the participation of the Shoshone-Bannock Tribes of the Fort Hall Reservation in CERCLA. This award provides \$950,000 of FY2023 allocated funds for Year 1 (2023-2024) and \$170,000 in forward funding for Year 2 (2024-25) for a total of \$1,120,000. The agreement assists the state of Washington to develop and implement a public water system supervision program to adequately enforce federal and state laws. EPA is providing funding under a new cooperative agreement to support OBDD's established brownfields revolving loan fund (RLF) program. EPA is providing funding under a new cooperative agreement to support Washington Commerce's established brownfields revolving loan fund. This agreement provides funding to the Fort Mojave to carry out its program to maintain, protect, and improve the water quality of its rivers, lakes, and streams. This agreement provides funding for the operation of the Tolowa Dee-Ni' Nation's continuing environmental programs while giving it greater flexibility to address its environmental programs. The purpose of this agreement is to support the California Department of Pesticide Regulation in ensuring that pesticides are manufactured, sold, used, and stored in a manner that protects human health and the environment. This agreement provides funding for the operation of the Big Pine Tribe's continuing environmental programs while giving it greater flexibility to address its environmental programs. This agreement provides funding to the State of Nevada to continue to enhance the existing state monitoring program and to establish a national monitoring program. This agreement provides funding to the State of Nevada to continue enhancing the existing state monitoring program and to establish a national monitoring program. This agreement provides funding to the State of Nevada to continue enhancing the existing state monitoring program and to establish a national monitoring program. The purpose of this project is to build the tribe's capacity to assess air quality conditions and to develop strategies to address air quality issue. This agreement provides funding to Salt River Pima Maricopa Indian Community (SRPMIC). Specifically, the recipient will monitor ambient air quality and implement air quality management programs. This agreement provides funding for the operation of the La Posta Band of Diegueño Mission Indians' continuing environmental programs while giving it greater flexibility to address its environmental programs. This assistance agreement includes fiscal year 2019 Drinking Water and Clean Water State Revolving Funds (DW & CW SRF) grant funds. This assistance agreement includes current and past Drinking Water and Clean Water State Revolving Funds for fiscal years 2020 and 2021. This assistance agreement includes Fiscal Year 2023 Drinking Water and Clean Water State Revolving Funds (DW & CW SRF) grants. This assistance agreement includes Fiscal Year 2024 Drinking Water and Clean Water State Revolving Funds (DW & CW SRF) grant funds. This agreement provides funding to the State of Hawaii to carry out its program to maintain, protect, and improve the water quality of its rivers. This agreement provides funding to the State of Hawaii to carry out its program to maintain, protect, and improve the water quality of its rivers. This assistance agreement provides full funding in the amount of \$120,000. See terms and conditions. This agreement provides funding for the operation of the Santa Rosa Band of Cahuilla Indians Tribe's continuing environmental programs while giving it greater flexibility to address its environmental programs. This agreement provides funding for the operation of the Santa Ynez Band of Chumash Indians to continue environmental programs while giving it greater flexibility to address its environmental programs. This agreement provides funding for the operation of the Kaibab Band's continuing environmental programs while giving it greater flexibility to address its environmental programs. This assistance agreement provides partial federal funding in the amount of \$133,790. The purpose of this agreement is to support the Arizona Department of Environmental Quality (ADEQ) in ensuring that pesticides are manufactured, sold, used, and stored in a manner that protects human health and the environment. This agreement provides funding for the operation of the Wiyot Tribe's continuing environmental programs while giving it greater flexibility to address its environmental programs.
